

Integrated Risk Management

Simplification. Assurance. Resilience.

Insider and external threat intelligence integrated with risk to drive automated actions

About TruOps

TruOps was founded to deliver an integrated security, risk, and compliance management cloud-based platform to address the challenges of over engineered, complex GRC implementations. TruOps is an exceptionally adaptive and simple to use platform created by risk, identity, and security professionals. The software uniquely combines risk management with insider and external threat intelligence to give enterprises a holistic view of risk. TruOps is headquartered in Norwalk, Connecticut.

An exceptionally adaptive and simple-to-use platform created by risk, identity, and security professionals

TruOps Integrated Risk Management empowers businesses with a holistic, intelligent, and real-time view of risks and threats across their IT operations, security operations, digital, third parties, compliance, governance, BCM/DR, and audit.

Featured Modules

Risk Management

Streamline and automate your risk management processes and identify risks in real-time. Get a consolidated and clear view of risk that allows you to prioritize risks, efficiently deploy resources to address the most critical problems, and elevate risk management as a new source of competitive advantage.

Compliance Management

Puts you in control of the complete compliance lifecycle, enabling improved governance of compliance-related activities. Determine your compliance score with TruOps' full content library of cross-mapped controls managed and updated in real-time.

Issues & Exceptions

Direct the right issue to the right individual. TruOps gives you all the tools to provide upper management with fast, accurate views of the real-time situations.

Reduce the risk of compliance violations. The powerful exception management framework automates all policy exception cycles such as exception reviews, escalations, approvals, and renewals.

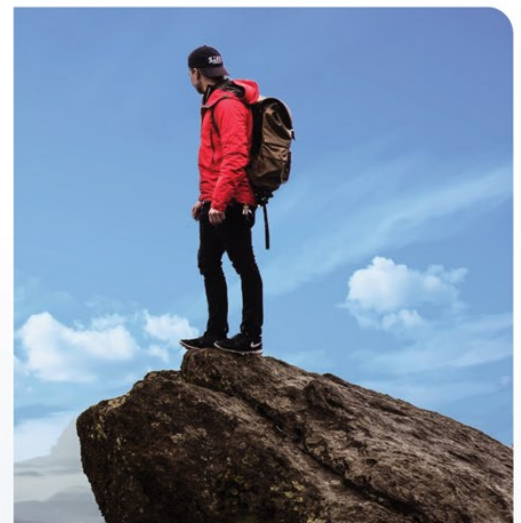

Vendor Risk Management

Automate and streamline oversight of vendor relationships and perform due diligence. Manage, monitor, and mitigate vendor risks efficiently and effectively by integrating vendors into a single framework and giving complete visibility into vendor risks. Keep a risk inventory of vendors so you always have status at your fingertips.

Customer Success

- Automated the risk assessment of 3,000 mission-critical applications across 14 business units
- Balanced Scorecard - Metric reporting process time reduced from 2 months to 2 weeks
- Reduced end-to-end audit process time from 9 months to 6 weeks
- Deployed our Cyber Risk Management solution in just 6 weeks and strengthened the risk & compliance posture with automation
- Expedited executive decision making with actionable intelligence & interactive dashboards
